MARKETING SOLUTIONS

# THE CAR WASH EXPERTS MAKE CAR WASHES SIZZLE

Our products don't just solve problems and help you make more money, they make car washes exciting places!

If you want to turn heads at your wash, contact us today. It won't be long before your wash stand out and your moving up your ticket average in the process.

## THE TSS *COMPETITIVE EDGE*

### REVENUE BOOST

Upsell more often with our marketing expertise.

### CUSTOMIZATION

NO limitations on designs. If you can dream it, we can build it!

### EXPERIENCE

Our products will turn your tunnel into the greatest show on earth!

**04**

**MARKETING SERVICES**

Eye-catching visual branding that inspires action with your wash.

**09**

**ARCHES**

Set the tone, highlight your wash features, and create a lasting impression.

**20**

**MANIFOLDS**

The best method of dispensing chemicals & creating a show.

**28**

**LED LIGHT BARS**

Illuminate your wash & chemicals with full spectrum lights.

**30**

**EXTERIOR FIXTURES**

Provide clear & visible directions across your site to avoid confusion.

**33**

**CANOPIES & CLEARANCE**

Protect customers & sensitive electronics from the weather.

**46**

**MENUS**

Drive higher wash package sales with a branded menu design.

**52**

**TRAFFIC FIXTURES**

Hinder lane confusion & promote efficient traffic flow.

**54**

**INSTRUCTIONAL FIXTURES**

Provide clear instructions to incoming wash customers.

**55**

**CONFIRMATION FIXTURES**

Confirm wash package selections to build customer confidence.

**56**

**TUNNEL FIXTURES**

Highlight featured chemicals with eye-catching fixtures.

**62**

**MEMBERSHIP FIXTURES**

Boost Memberships & awareness with purposefully designed signs.

**64**

**PROMOTIONAL SIGNS**

Advertise wash offerings, specials, & events across your wash site.

**76**

**VACUUM MARKETING**

Take advantage of your vacuum area to promote your marketing.

**78**

**LED LIGHTING**

Illuminate the interior & exterior of your building.

**84**

**MISCELLANEOUS**

Essential equipment needed to keep your wash operating efficiently.

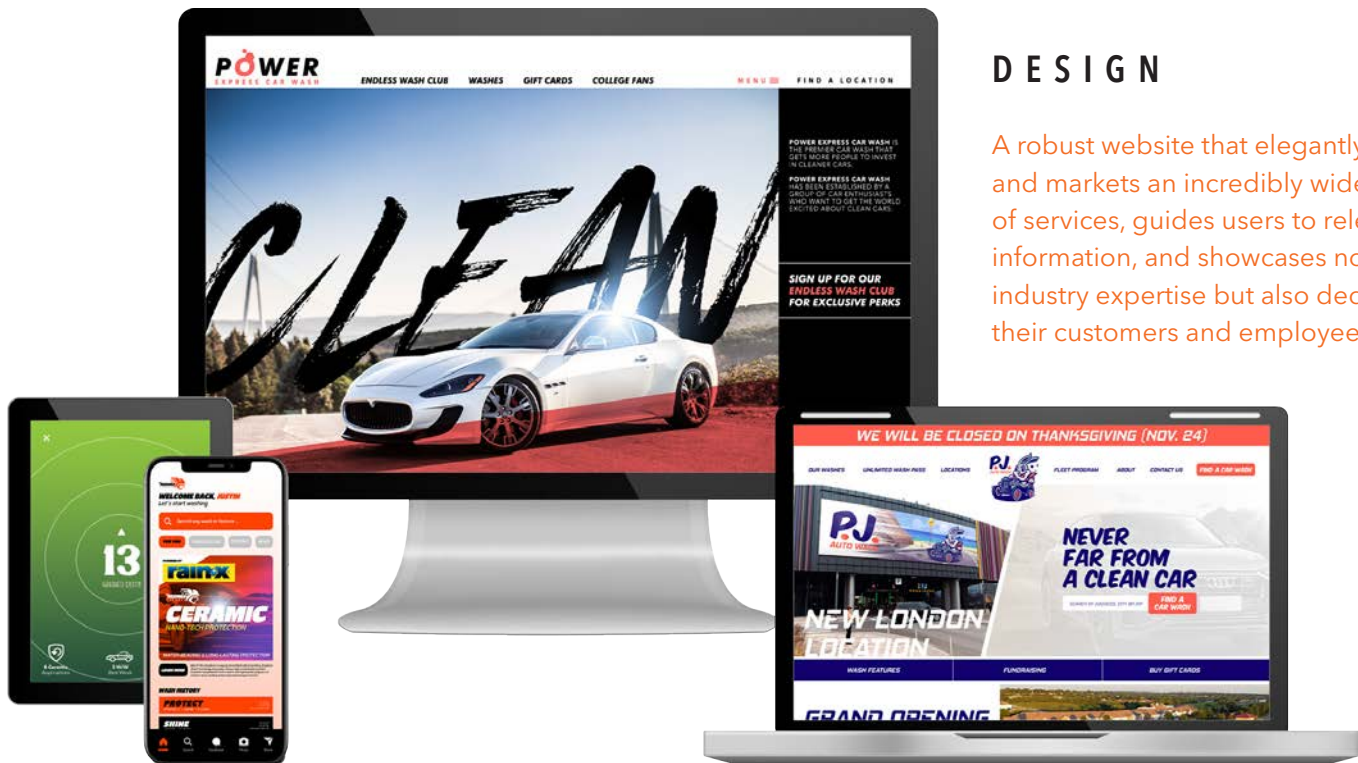

**88**

**REPLACEMENT PARTS**

Replacement components to keep your equipment operating.

# WEB DESIGN

## DESIGN

A robust website that elegantly supports and markets an incredibly wide range of services, guides users to relevant information, and showcases not only industry expertise but also dedication to their customers and employees.

## WE'RE A DIGITAL MARKETING AND WEB DESIGN AGENCY.

We combine research-driven strategy and inventive design to architect change and build the best experiences for our clients' audiences.

### WEB DESIGN

The best websites aren't brochures. Our sites are more like your best and hardest working salespeople: dedicated, multi-tasking, and always laser focused on your bottom line.

### OPTIMIZATION

Looking to tweak your current website or take your SEO, analytics, or conversions to the next level? Learn more about our website optimization services and get a free site audit today!

### MAINTENANCE & HOSTING

Even if we didn't build your website, we offer a variety of packages to help maintain, protect, and even update your website so you can focus on running your business.

# BRANDING

SMART. CLEAR.  
COMPELLING.

We know the complex details of the car wash industry to discover insights that give businesses their edge. Coupling strategy and design right from the beginning, our team uses data and intuition to create well-defined identities, build brands, drive interactions, and deliver results that perform.

## WE'RE CREATIVE ARCHITECTS.

Everyday we're building brands from the ground up—laying the foundation and building the framework for our clients. Whether starting from square one with brand discovery, merging acquired companies, or bringing new energy with a brand refresh, we meet our clients where they are to create brands that clearly and beautifully communicate their value to the world.

# OPTIMIZE YOUR ARCHES

Arches highlight your wash features and add plenty of excitement for your customers - but taking car washes to the next level is what we take pride in, so we offer a wide variety of upgrades to our arches that will make your wash unforgettable!

## Upgrade 1

### MANIFOLDS

Create endless sheets, fans, and storms of foam that completely envelops the vehicle. Chemical Manifolds are fundamental to a car washes ability to consistently deliver a high-quality wash and give your arches functionality far beyond looking nice.

## Upgrade 2

### PUMP

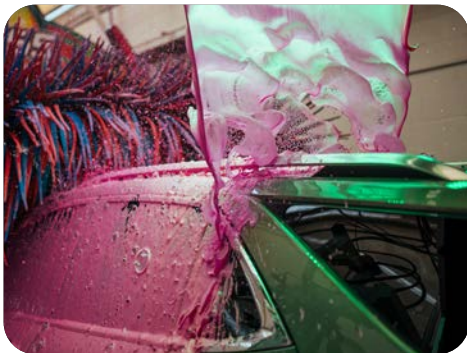

Our pre-plumbed system includes all the necessary accessories mounted on a single panel to ensure accurate chemical dispensing while cutting your cost-per-car. Also features volumetric proportioning that automatically compensates for changes in water pressure.

## Upgrade 3

### LED LIGHT BAR

The ultimate and final step in creating an unforgettable show-experience for your customers. Our ultra bright LED lights will allow your wash to go above and beyond expectations and blur the line between a car wash and a full scale light-show production.

Dosatron

## PUMPING STATION PANEL

Add to cart >>

- + Our pre-plumbed system includes all the necessary accessories mounted on the panel. Dosatrons are a perfect fit for presoaks, detergents, and acidic products.
- + The water-powered Dosatron provides accurate car wash chemical dispensing while cutting your cost-per-car.
- + Dosatron's volumetric proportioning dosing method automatically compensates for changes in water pressure or flow, producing a consistently-homogenous chemical mixture. This means that your chemical dilution rate stays the same regardless of pressure and flow changes, leading to a consistent clean you can count on.

**Model** D14MZ2VFDII

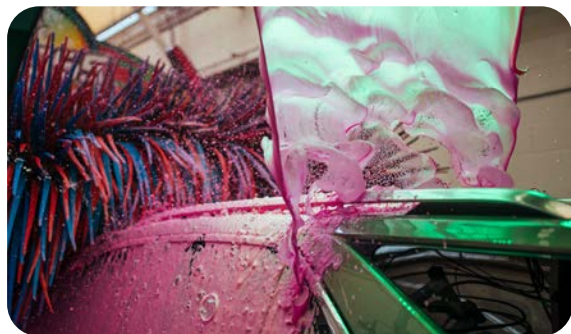

**Flow Range** Up to 14GPM

**Dilution Range** 1:500 to 1: 50

**Pressure Range** 4.3 to 85 PSI

# DESIGN TO STRENGTHEN YOUR BRAND

A menu design audit involves analyzing all the design elements used across your wash site in order to ensure that branding is consistent across all channels and maximized to drive higher wash package sales. That not only means taking stock of your visual design elements, but also the verbal and written portions of your customer experience.

Design audits have gained popularity in recent years, and for good reason. Let's break down the components of a menu audit and dive into how to do one of your own.

## ANALYZE

### Examine the structure of your menu

- Is there consistency throughout the design?
- Is the menu user friendly & easy to understand?
- Are the icons all from the same set?
- Is the typography always the same?
- Does the design follow branding guidelines?

## IMPROVE

### Rebuild the menu from the ground-up

- Emphasize the top 2 wash packages
- Simplify wash package contents
- Minimize low-tier wash packages

## EXECUTE

### Work with a design professional

- TSS can help evaluate your menu and suggest unique ideas to help with that WOW factor.
- TSS can model a new menu design to achieve your specific goals using your unique branding.
- Having a team of design professionals trained in visual communication and marketing can take your ideas and raise them to the next-level.

Used to encourage repeat business

# DRIVE REVENUE

## Digital Signage Benefits & Return on Investment

The world of business is a fast moving one, and trends in marketing are moving even faster. If you're relying too much on traditional marketing methods, you may be left in the dust by competitors who are embracing digital.

One trend that's seeing an explosion in growth is the use of digital displays to replace traditional static signage. Car washes are adopting digital signage to improve their customer experience, reduce overhead costs in the long run, and ultimately market their brands more successfully.

### 01 INCREASE CUSTOMER ENGAGEMENT

Of the 70% of Americans who recall seeing a digital video display in the past month, 47% can specifically recall the ad they saw.

### 02 DRIVE TOP WASH PACKAGE UPSELLS

You can take upselling to the next level by suggesting products or grouping them to meet your business goals.

### 03 MAKE GOOD, NUMEROUS IMPRESSIONS

**Digital signage makes an impression.**

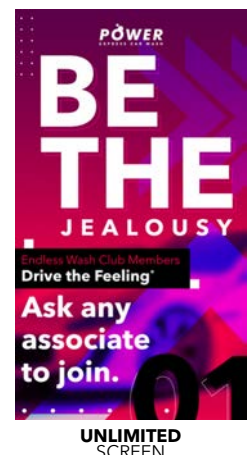

The number of people who notice static signs, drop off significantly after the 1st day, but digital signs consistently receive a high amount of attention month after month.

### 04 GROW YOUR SALES

**Drive Impulse Buys:** 19% of consumers make unplanned purchases after seeing a digital ad.

**Promote Specific Items:** Digital ads had, on average, a 49% increase in sales versus a control with no ads.

**Motivate Customers to Action:** In the study above, 6 people took an offer for a free bag ad from a static sign. With digital signage, 610 people took up on the offer.

## Revenue Driving

## DIGITAL I-MENU™

Add to cart >>

- + Built for durability & flexibility. Can withstand extreme temperatures from -30 degrees C to 50 degrees C. You can be sure that messages are seen vibrantly almost anytime or anywhere.
- + Easily connect and manage displays and content via USB jump drive, wired CAT-5 cable maximum 100 meters (not provided) or HDBase T-connection.
- + Auto brightness sensor that will optimize brightness and it exceeds the brightness level of common outdoor displays in the market.
- + Polarized sunglass support so image doesn't distort when viewed through sunglasses.
- + Price includes 3 animated screen designs.
- + Unique outdoor panel is designed to protect the sign from direct sunlight blackening defects and has a front Nano coating anti-graffiti layer protecting the 5MM glass.

### SQUARE MOLDED FIBERGLASS GRATING LOAD TABLE - ISOPHTHALIC POLYESTER RESIN

### CUTTING

Carbine tipped blade is needed for cutting.  
We recommend safety glasses & a breathing mask.

- Fiberglass is an excellent choice due to its strength, light weight, & chemical resistance.
- Our gratings are ISO Polyester Resin, which is widely used for its high chemical resistance.

## Flat Top FIBERGLASS GRATING

with Top Grit for slip resistance

Add to cart >>

- + Solid top is recommended under car wash dryers to prevent water from blowing out of conveyor pit.
- + **Solid flat top 1.5" H.**
