144WATT LED CONTROLLER

Product Features :

- 3 channels RGB Control, MAX 6A/Channel Constant voltage drive (Two groups terminal output, MAX 3A/terminal)
- Up to 31 changing models to select,256 gradations changing
- Can select changing speed and total brightness for each model separately
- 8 level gradations speed and brightness adjustment
- Model pause function
- Mode, Suspend power and memory function
- Soft-switch function

Product Specification :

Input power	DC 5-24V
Output power	5V: ≤90W; 24V: ≤432W
Standby power consumption	0.5W
Size (mm)	(L)127X(W)52X(H)19(mm)
Weight	170g
